APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is  
understood that the amount of water herein granted is only a temp-  
orary allowance and that the final water right obtained under

must allow for a reasonable lowering of the static water level.  
This well shall be equipped with a two (2) inch opening for meas-  
uring depth to water. If the well is flowing, a valve must be  
installed and maintained to prevent waste. A totalizing meter  
must be installed and maintained in the discharge pipeline near  
the point of diversion and accurate measurements must be kept of  
water placed to beneficial use. The totalizing meter must be  
installed before any use of water begins, or before the Proof of  
Completion of Work is filed.

This permit is issued subject to the terms and conditions  
set out in the State Engineer's ruling of July 1, 1977. The total
